Andover Carnival needs as many helpers as it can find to help raise funds in the park and walk with the procession. All the funds raised on the day will be split evenly across the selected charities. **Therefore the more helpers you can find to actively collect in the park and on the procession the more money that could be raised, which should mean more money for you!**

Estimate of helpers available?

I confirm I have read and understand the above and my answers are true to the best of my knowledge.
